This auction contains something for everyone, and is the perfect way to top off your Holiday weekend. The house is situated at the end of a long private driveway and encompasses over 7+ acres behind stately stonewalls and iron gates on park-like grounds. The 4900 square foot home is jammed with over fifty years of passionate and compulsive collecting, and there is a carriage house filled as well.

It is estimated that there will be well over 1,000 lots sold over the two day sale.
